## Passover - Creating a Festive Gathering

Some may wish to view the video of the Passover celebration as a group. We offer the following suggestions for items to have on hand for joining in with the video.

### Ritual Items:

- Elijah's cup – can be a specially designated wine cup or wine glass
- Seder plate

A special plate (or any designated plate will work) upon which to put these items

- 1 Hard Boiled Egg Parsley
- Salt water in a small bowl for dipping
- Bitter Herbs = Horseradish cut into small pieces, horseradish sauce or bitter lettuce
- Shank bone or other small symbolic bone for the Seder plate. Some will use a roasted beet
- Charoset (a mixture of ground nuts, cinnamon and peeled chopped apples)

### Foods:

- Matzah
- Grape juice or wine
- Gefilte Fish with horseradish sauce. This is a most traditional part of many Seder meals and creates a special food connection for this celebration.
- Macaroons. A traditional Passover dessert and again, can lend a special feeling of connection to this holiday.

### Haggadah:

A few examples....

This is the special book that is used to help guide the telling of the Passover service. There are many renditions of this volume all containing the central 15 steps but told in ways that include ideas and matters of history as devised by the writer, editor or time period in which the volume was written. The video follows a specially abbreviated Haggadah.
